Speaker

Assoc. Prof. Karl Miller (moderator)
Bariatric Surgeon at Privatklinik Wehrle-Diakonissen, Salzburg, Austria
Johnson & Johnson Chief Medical Officer Emerging Markets

Prof. Dr. med. Marco Bueter, PhD
Head Bariatric & Metabolic Surgery Program, University hospital Zurich, Switzerland

Dr. med. Ralf Weise
Chief Physician General & Visceral Surgery, Marienhospital Friesoythe, Germany

Dr. Alessandro Giovannelli
Chief Physician Obesity Center of Istituto Clinico Galeazzi Sant'Ambrogio in Milan, Italy

Overview

The **Johnson & Johnson Institute** proudly presents the **webinar series** entitled “**E-BARI DEBATE**”, which has been launched in September 2020. The **moderator, Prof. Karl Miller**, is introducing each time a different “**hot**” **topic**, which is discussed in the bariatric & metabolic community. For each E-BARI DEBATE he invites **renown experts** and asks them to share their experience & knowledge. The **audience** has the opportunity to **actively participate during Q&A and voting sessions**.

The **E-BARI Debate on May 16, 2022** will focus on “**Patient Engagement and Quality of Bariatric Care**”. Connecting, educating and supporting patients with obesity along the care pathway as well as standardizing the surgical process and driving OR digitalization are crucial to improve patients experience and outcomes, while driving down the cost of care. During this webinar the faculty will share their successful strategies to involve patients and will discuss how to ensure a consistent high quality of care for patients with obesity in and outside the operating theatre.

The faculty will be available for the entire time of the symposium addressing any of your questions and/or comments.
