9:45-10:00	Fanboys and facts in bariatric surgery (Khaled Gawdat, Egypt)
10:00-10:15	Constructing a training model for surgeons starting bariatric & metabolic surgery (Marcello Lucchese, Italy)
10:15-10:30	How IFSO MENAC was formed and future perspectives (Abdelrahman Nimeri, USA)
10:30-11:00	Opening Ceremony

1- National Anthem

2- reciting fro the holy Quran

3- welcoming from Dr. Tagleb Mazahreh/Chairman of the scientific committee

4- Welcoming from Dr. Sami Salem Ahmad/President of the Congress

5- Welcoming from Dr. Ali ALEbous/Chairman of the Medical association

6- Word of Her Majesty Princess Muna Alhussain

Visiting the Exhibition/Closure of the Ceremony

Session 2: Complications of Bariatric Surgery (PASMBS)

Moderators: Jacques Himpens, Mohammad Hayssam Fawal, Khaled Gawdat, Ashraf Haddad

Time: 11:00-12:30

TIME	MAIN HALL
11:00-11:10	Use of virtual gastrography in preparation for revisional surgery (Mohammad Abu Zeid, Egypt)
11:10-11:20	Lessons learned in OAGB/MGB –single center experience (Mohammad Hayssam Fawal, Lebanon)
11:20-11:30	Marginal ulcers after DAGB (Osama Taha, Egypt)
11:30-11:40	The importance of biliopancreatic limb in gastric bypass (Abdelrahman Nimeri, USA)
11:40-11:50	SADIs as a revisional procedure (Alaa Abbass, Egypt)
11:50-12:00	Laparoscopic Sleeve Gastrectomy in Children and Adolescents with Type 2 Diabetes: Long-term Outcomes (Ayed Al Qahtani,KSA)
12:10-12:20	Revision of LSG into LRYGB (Safwan Taha, UAE)
12:20-12:30	Panel Discussion
12:30-13:30	Lunch break

Session 3 : Long term Bariatric outcomes

Moderator: Michel Sutter, Gerhard Prager ,Mohammed Khrais, Muhammad Alzaitawi

Time 13:30-15:45

TIME	MAIN HALL
13:30-13:45	Long term RYGB outcomes and Redo Surgery (Michel Sutter, Switzerland)
13:45-13:55	What happens to the gastric bands after 10-15 years (Sami Salem Ahmad, Jordan)
13:55-14:10	Long term results of sleeve gastrectomy (Mohammed Khrais, Jordan)
14:10-14:25	Long term Laparoscopic Sleeve Gastrectomy outcomes (Gerhard Prager, Austria)
14:25-14:40	Laparoscopic Sleeve gastrectomy with loop DJB or ileal transposition outcomes (Abhay Agrawa, India)
14:40-14:55	SADIs procedure, technical issues and clinical results (Antonio Torres, Spain)
14:55-15:10	Long term BPD/DS outcomes (Jacques Himpens , Belgium)
15:10-15:20	Conversion option for bariatric surgery (Khalil Zayyadin, Jordan)
15:20-15:45	Panel discussion
15:45-16:00	Coffee Break

Session 4: Revision and complications:

Moderator: Salam Daradkeh, Firas Obaidat, Tagleb Mazahreh, Safwan Taha

Time 16:00-18:00

TIME	MAIN HALL
16:00-16:10	The irrationality of revisional surgery (Kelvin Higa, USA)
16:10-16:20	Complications after Roux en Y gastric bypass and sleeve gastrectomy, (Jerome Dargent, France)
16:20-16:30	Leaks after one anastomosis gastric bypass: different approach (Ali Khammas, UAE)
16:30-16:40	Revisions after RYGB, long term results of distalization og RYGB (Jacques Himpens , Belgium)
16:40-16:50	Surgical revision of 'candy cane' after RYGB (Ahmed Ahmed, UK)
16:50-17:00	Laparoscopic esophageal injury during LSG (Ayman Shaker, UAE)
17:00-17:10	Success of the Management of bariatric operation complications in our center (Wael Naasan, Jordan)
17:10-17:20	The impact of Routine Omentopexy to Staple Line on the Incidence of Early Post-Operative Complications After Laparoscopic Sleeve Gastrectomy (Karim Sabry, Egypt)
17:20-17:30	What can we predict from IFSO worldwide survey about the need for revisional surgery (Luigi Angrisani, Italy)
17:30-17:45	Panel discussion and concluding remarks

DAY TWO: Thursday July 26th

Session 1: Bariatric Endoscopic Procedures

Moderators: Ayed Al Qahtani, Jerome Dargent, Eyad Eid, Ahmad Bashir, Tareq Qutub,

TIME 9:00-10:30

TIME	MAIN HALL
9:00-9:10	Are primary bariatric endoscopic techniques competitive with metabolic surgery? (Jerome Dargent, France)
09:10-9:20	Endoscopic sleeve gastrectomy in 700 Patients, one year results. (Ayed Al Qahtani, KSA)
9:20-9:30	The effect of age, gender on weight loss outcomes in obese patients with intragastric balloon (Fadi Diab, Jordan)
9:30-9:40	Rule of upper GI endoscopy prior to sleeve gastrectomy, an invasive procedure of uncertain significance (Tagleb Mazahreh, Jordan)
9:40-9:50	How to manage gastric leak post sleeve gastrectomy? Local experience (Muhammad Alzaitawi, Jordan)
9:50-10:00	What we learned from 64 years of Metabolic Surgery (Mal Fobi, USA)
10:00-10:15	Panel discussion
10:15-10:30	Coffee Break

Session 2: Bariatric surgery ,Sleeve, GERD, Sleeve complications

Moderator Karl Miller:Osama Damra, Karim Sabry, Assad Ghasal.

TIME 10:30-12:30

TIME	MAIN HALL
10:30-10:40	Bariatric surgery, Hiatal hernia and GERD (Luigi Angrisani,, Italy)
10:40-10:50	Aggressive approach toward the hiatus hernia (Osama Damra, Jordan)
10:50-11:00	Falciiform wrap is it the answer for post-bariatric procedure reflux (Hassan Hussain, Jordan)
11:10-11:20	Pathophysiology of reflux after Sleeve (Marcello Lucchese, Italy)
11:30-11:40	Revisional surgery after sleeve gastrectomy Failure (Enrico Facchiano, Italy)
11:50-12:00	LSG for a large infected GIST in patient with severe obesity . Video (Osama Hamed, Jordan)
12:00-12:10	Should we band the pouch in sleeve and gastric bypass? (Mal Fobi, USA)
12:10-12:20	Hypoglycaemia after Roux en Y gastric Bypass (Enrico Facchiano, Italy)
12:20-12:30	panel discussion
12:30-13:30	Lunch

Session 3: Obesity, Endocrine, Nutrition

Moderators : Yousef Al-Ajlouni, Fares Haddad, Malek Kasasbeh, Reema Tayyem

TIME 13:30-15:00

TIME	MAIN HALL
13:30-13:40	Obesity among Jordanians with acute coronary syndrome, prevalence (Ayman Hamoudeh, Jordan)
13:40-13:50	Endocrine causes of Obesity (Munther Al-Momani, Jordan)
13:50-14:00	Medical management of Obesity (Nadia Ahmad, UAE)
14:00-14:10	Non-surgical approach to treat obesity (Hashem Abdallah, Qatar)
14:10-14:20	Validity of BMI for the assessment of body fatness among Qatari adults (Hiba Bawadi, Qatar)
14:20-14:30	Dietary intervention for hypothyroidism overweight/obese reproductive age women attending diabetes and endocrine clinics in the North of Jordan Nahla Al-Bayyari a, *, Nesreen Saadeh b, Rae'd Hailat
14:30-14:40	Physiology of weight loss surgery (Nasreen Alfares, KSA)
14:40-14:50	Hypoglycemia after Bariatric Surgery: An endocrinologist view (Ahmad Mbastat, Jordan)
14:50-15:00	Indication of metabolic surgery (Michel Sutter, Switzerland)
Panel Discussion	
15:15-15:30	Coffee Break

Session 4: Metabolic surgery /MDT

Time 15:30-18:00

Moderator: Abdulkareem Khawaldeh, Antonio Torres, Mohammad Rashid

TIME	MAIN HALL
15:30-15:40	Metabolic Surgery in up dated approach (Antonio Torres, Spain)
15:40-15:50	Pathophysiology in Dumping in one anastomosis gastric bypass versus Roux en y gastric bypass (Jacques Himpens , Belgium)
16:00-16:15	Anesthesia and surgical collaboration to optimize patient recovery post bariatric surgery (Ahmed Ahmed, UK)
16:15-16:30	Prepyloric or postpyloric bypass (Karl Miller, Austria)
16:30-16:45	Weight gain promoting medication (Nisreen Alfares, KSA)
16:45-17:00	Challenge of anesthesia in obesity Surgery (Muaweih Ababneh, Jordan)
17:10-17:20	An update on management with a focus on the regional setting and the role of Bariatric surgery in halting the disease. (Raad AlMehdi, Oman)
17:20-17:30	Panel discussion and concluding remarks

TIME	HALL B 26 th July
14:00-16:00	<p>Integrated Health session , Nutrition</p> <p>Led by Nadia Ahmad, Nasreen Alfares, Jumana Bashiti,</p> <p>Basma Kilani</p> <p>Sponsored by J & J</p>
