THE ROLE FOR ONE-ANASTOMOSIS BARIATRIC DERIVATION, ROBOTIC AND ENDOSCOPIC PROCEDURES

Panel Discussion & Live Demonstration

07/08 JUNE UNICAMP Campinas - SP
The Future Trends in Bariatric/Metabolic Surgery bring together the best national and international experts to address the most recent innovations and new frontiers of surgical and endoscopic approaches. The participants will discuss and evaluate the technical aspects of the most challenging procedures, indications and management of bariatric complications, supported by surgeries performed on live. In this first edition, we highlighted two topics, the fundamentals and best practices on OAGB/MGB and SADI/OADS.
