THE GRAVITY OF OBESITY
How to Escape from It

Thursday 31 August - Sunday 3 September 2017
Conrad Hotel, Seoul, Korea

Online Registration Due: 10 August 2017
Welcome Message

Dear esteemed colleagues,

On behalf of the Korean Society for the Study of Obesity (KSSO), we welcome you to attend the 2017 International Congress on Obesity and Metabolic Syndrome (ICOMES) in conjunction with the 47th Annual Scientific Meeting of KSSO from Thursday 31 August to Sunday 3 September 2017 at Conrad Hotel in Seoul, Korea.

We cordially invite all the participants who are interested in sharing their knowledge and research in the arena of Obesity. The ICOMES expects more than 1,000 participants around the globe. Since 2015 the ICOMES has grown into the leading-scientific meeting in the field and we are grateful for friends to have taken part in meetings.

This year’s meeting is the excellent opportunity for the delegates from Universities and Institutes to interact with the world class Scientists. The scientific committee invited distinguished speakers for lectures and symposia.

The Grand Slogan of KSSO “Standing as the Administrative Society on Obesity” will be alive until the era’s coming – Non-obese world’s coming, and we have been now pouring a lot of efforts to accurately look into the current status of the field and the environment of the relevant professionals across the world. Once again, we declare the meeting will be as the historical beginning to achieve the ultimate goal of yours as well. The congress’s theme is “The Gravity of Obesity: How to Escape from It” and the programs will be fit for your needs on academic merits.

We all look forward to meeting many of you in ICOMES.

Best regards,

Kee-Hyoung Lee
President
Korean Society for the Study of Obesity

Soon Jib Yoo
Chairman, Board of Directors
Korean Society for the Study of Obesity

Cheol-Young Park
Chairman, Scientific Committee
Korean Society for the Study of Obesity

Dear esteemed colleagues,

The number of people suffering from metabolic disorders such as obesity, metabolic syndrome and type 2 diabetes is increasing worldwide, and more people are expected to suffer from chronic complications of such disorders in the recent future. Simultaneously, understanding complex mechanisms behind the pathogenesis of obesity, metabolic syndrome and the significance of interactive collaboration among clinicians and researchers has become more crucial.

“The International Congress on Obesity and Metabolic Syndrome (ICOMES) ” held in Seoul, Republic of Korea in September 2017 is expected to be a meeting place, where researchers and healthcare professionals can share the remarkable advances in research on obesity and metabolic syndrome.

This comprehensive congress will feature significant advances in numerous topics under the slogan of “The Gravity of Obesity: How to Escape from It”. Each topic will be elaborated in both the basic and clinical aspects by extraordinary researchers and experts we have invited.

This international congress will be a great opportunity for you to share the novel knowledge and experience, and we sincerely look forward to meeting you here at Seoul in this upcoming Autumn.

Best regards,

Cheol-Young Park
Chairman, Scientific Committee
Korean Society for the Study of Obesity

---

**Note:** The timetable includes sessions on topics such as obesity, metabolic syndrome, nutritional intervention, obesity management, and various lectures and symposiums. The schedule is designed to cover a wide range of topics related to obesity and metabolic disorders, with a focus on cutting-edge research and practical applications.
Plenary and Special Lectures

**Plenary Lecture** [11:00~11:40] Fri. 1 Sep. | Room 1+2+3

The rollercoaster history of turning incretin hormones into glucose-lowering drugs with unequivocally positive benefit-risk relationship
Michael Nauck (St. Josef-Hospital, Germany)

**Special Lecture 1** [11:40~12:10] Fri. 1 Sep. | Room 1+2+3

The color of fat: brown, beige, and white
Shingo Kajimura (University of California, USA)

**Special Lecture 2** [11:00~11:30] Sat. 2 Sep. | Room 1+2+3

Brain control of fat metabolism: bidirectional crosstalk between adipose tissues and the brain
Gary J. Schwartz (Albert Einstein College of Medicine, USA)

**Special Lecture 3** [11:30~12:00] Sat. 2 Sep. | Room 1+2+3

Gut microbiota and energy homeostasis
Mirko Trajkovski (University of Geneva, Switzerland)

Keynote Lectures

**Keynote Lecture 1** [08:30~09:00] Fri. 1 Sep. | Room 4+5+6

Adiponectin, a key adipocytokine for the metabolic syndrome
Yuji Matsuzawa (Osaka University, Japan)

**Keynote Lecture 2** [08:30~09:00] Sat. 2 Sep. | Room 4+5+6

Obesity is treatable – where and how to do something about it
Ian Caterson (World Obesity Federation, Australia)
### Symposia

#### Symposium 1
**Research on Metabolic Syndrome: The State of the Art 2017**

**Friday 1 Sep. | Room 1**

<table>
<thead>
<tr>
<th>Time</th>
<th>Session</th>
</tr>
</thead>
</table>
| 09:00-09:30| The differential effect of lifestyle interventions on specific organ fats deposition  
Iris Shai (Ben Gurion University, Israel) |
| 09:30-10:00| Role of novel adipocytokines in cardiovascular disease  
Noriyuki Ouchi (Nagoya University, Japan) |
| 10:00-10:30| Changes of biomarkers with antioxidative effects and new-onset metabolic syndrome  
Jae Hyeon Kim (Sungkyunkwan University, Korea) |

#### Symposium 2
**The Game of Truth: Physical Activity, Calories, and Energy Homeostasis**

**Friday 1 Sep. | Room 2**

<table>
<thead>
<tr>
<th>Time</th>
<th>Session</th>
</tr>
</thead>
</table>
| 09:00-09:30| Objective assessment of physical activity for self-monitoring and identifying determinants of obesity  
Shigeho Tanaka (National Institutes of Biomedical Innovation, Health and Nutrition, Japan) |
| 09:30-10:00| How to prepare to discuss goals for dietary energy intake and physical activity  
Kazuko Ishikawa-Takata (National Institutes of Biomedical Innovation, Health and Nutrition, Japan) |
| 10:00-10:30| Measurement of physical activity using accelerometers in epidemiological studies: challenges for population approach  
Jung-Hoon Kim (Gachon University, Korea) |

#### Symposium 3
**Obesity and the Bone Health in Childhood**

**Friday 1 Sep. | Room 3**

<table>
<thead>
<tr>
<th>Time</th>
<th>Session</th>
</tr>
</thead>
</table>
| 09:00-09:30| The impact of fat on skeletal health: an evolving story  
Paul Dimitri (The University of Sheffield, UK) |
| 09:30-10:00| Childhood obesity affects bone maturation and bone density  
Toru Kikuchi (Saitama Medical University, Japan) |
| 10:00-10:30| Bone health in the obese children and adolescents in Korea  
Min Jae Kang (Hallym University, Korea) |

#### Symposium 4
**Insights into the GLP-1 Treatment in Obesity and T2DM**

**Friday 1 Sep. | Room 1**

<table>
<thead>
<tr>

| 16:20-16:50 | **Signaling pathways that control lipid handling in adipocytes**  
David Guertin (University of Massachusetts, USA) |
| 16:50-17:20 | **Adipocyte fatty acid binding protein in obesity and its associated cardio-metabolic complications: friend or foe?**  
Aimin Xu (The University of Hong Kong, Hong Kong) |
| 17:20-17:50 | **Interplay between Wnt and glucocorticoid signaling during adipogenesis**  
Hyunsung Park (University of Seoul, Korea) |
Symposia

Symposium 9
New Kids On The Block: The Emergence of New Players in Metabolic Disorders

Friday 1 Sep. | Room 3

16:20-16:50
Microbiota-derived metabolites shape mucosal barrier and immunity
Koji Hase (Keio University, Japan)

16:50-17:20
Iron overload and metabolic syndrome complications
Gary Sweeney (York University, Canada)

17:20-17:50
Molecular control of insulin secretion in human health and T2DM
Patrick MacDonald (University of Alberta, Canada)

Symposium 10
Managing Obesity in The Digital Age: Applying Cutting-Edge Digital Health Care Technology

Saturday 2 Sep. | Room 1

09:00-09:30
Non-surgical weight management for diabetes remission: a new target for optimal clinical care
Michael Lean (University of Glasgow, UK)

09:30-10:00
A new way for communication between patient and doctor for obesity management
Jae Hyoung Cho (The Catholic University of Korea, Korea)

10:00-10:30
mHealth3: Monitoring, modeling, and modifying obesity-related behaviors in a digital world
Donna Spruijt-Metz (USC-CESR Mobile and Connected Health Program, USA)

Symposium 11
Crosstalk via Secreted Factors in Adipose Tissues

Saturday 2 Sep. | Room 2

09:00-09:30
HOXC10 suppresses browning of white adipose tissues
Weiping Han (University of Singapore, Singapore)

09:30-10:00
Adipose tissue NAD+ biology in inter-organ metabolic communication
Jun Yoshino (Washington University, USA)

10:00-10:30
Adipose tissue immune cells: key players in metabolic syndromes
Kae Won Cho (Soonchunhyang Institute of Medi-bio Science, Korea)

Symposium 12
Molecular Understanding of Metabolic Liver Disease Research

Saturday 2 Sep. | Room 3

09:00-09:30
Posttranslational regulation of HMG CoA reductase by LXR agonist
Young Ah Jo (University of Texas, USA)

09:30-10:00
Nrf2 activation acquired in a transition from steatosis to liver cancer
Keiko Taguchi (Tohoku University, Japan)

10:00-10:30
Bile acid receptor FXR in the gut: a novel therapeutic target for the T2DM
Sungsoon Fang (Yonsei University, Korea)

  Gwangpyo Ko (Seoul National University, Korea)

**Symposium 18**  
**Binge Eating Disorder: Modeling & Intervention**  
*Saturday 2 Sep. | Room 3*

- **16:30-17:00**  
  *Emotional eating, binge eating and animal model of binge-type eating disorder*  
  Janet Treasure (King’s College London, UK)

- **17:00-17:30**  
  *Binge eating disorder: its past, present, and future*  
  Yung-Chieh Yen (I-Shou University, Taiwan)

- **17:30-18:00**  
  *Non-pharmacological treatments of binge eating disorder*  
  Mirihae Kim (Duksung Women’s University, Korea)

**KSSO Sessions (K)**  
*(K): 한국어세션

**KSSO Session 1 (K)**  
**Nutritional Intervention for Treatment of Obesity in Clinical Settings**  
*Friday 1 Sep. | Room 4*

- **09:10-09:40**  
  *Application of dietary pattern to nutrition care for obese people in clinical field*  
  Min Young Noh (Seoul St. Mary’s Hospital, Korea)

- **09:40-10:10**  
  *All about alternative sweeteners use in weight management*  
  Hyunjung Lim (Kyung Hee University, Korea)

- **10:10-10:40**  
  *Role of clinical dietitian for successful bariatric/metabolic surgery*  
  Sukhee Ahn (Inha University Hospital, Korea)

**KSSO Session 2 (K)**  
**New Paradigm for Obesity Management**  
*Friday 1 Sep. | Room 5*

- **09:10-09:40**  
  *Management of adolescent obesity*  
  Seon Yeong Lee (Inje University, Korea)

- **09:40-10:10**  
  *What is the new obesity management in 2017*  
  Ju Young Kim (Seoul National University, Korea)

- **10:10-10:40**  
  *The latest updates for anti-obesity drugs*  
  Donghoon Yang (Chungdam Varom Clinic, Korea)
### KSSO Sessions (K)

#### KSSO Session 3 (K)
**Method and Consequences of Energy Intake and Expenditure**

**Friday 1 Sep. | Room 4**

<table>

## KSSO Sessions (K)

*K: 한국어세션

### KSSO Session 6 (K)

Health Outcomes after Bariatric/Metabolic Surgery  

**09:10-09:30**  
**Improvement of diabetes and proper patient selection**  
Do Joong Park (Seoul National University, Korea)

**09:30-09:50**  
**Cancer risk reduction**  
Sang Kuon Lee (The Catholic University of Korea, Korea)

**09:50-10:10**  
**Improvement of infertility and polycystic ovary syndrome**  
Jong Won Kim (Chung-Ang University, Korea)

**10:10-10:30**  
**Early resolution of obstructive sleep apnea**  
Hyang Woon Lee (Ewha Womans University, Korea)

### KSSO Session 7 (K)

GLP-1 in a Pre-diabetic Obesity  

**09:10-09:40**  
**Risk reduction in pre-diabetes**  
Sin Gon Kim (Korea University, Korea)

**09:40-10:10**  
**T2DM risk reduction and weight management in individuals with pre-diabetes**  
Luc Van Gaal (Antwerp University, Belgium)

**10:10-10:40**  
**Cardiovascular outcome trials of GLP-1 receptor agonist**  
Eun-Jung Rhee (Sungkyunkwan University, Korea)

### KSSO Session 8 (K)

Obesity Management using Digital Healthcare Technology

**14:40-15:10**  
**Successful weight reduction and maintenance by using a smartphone application in those with overweight and obesity: a global scale analyses**  
Sang Youl Rhee (Kyung Hee University, Korea)

**15:10-15:40**  
**Multidisciplinary digital cognitive behavior therapy for obesity**  
Hyung Jin Choi (Seoul National University, Korea)

**15:40-16:10**  
**Diabetes prevention using mobile technology: digital diabetes prevention program**  
Younghin Kim (Noom Korea, Korea)

### KSSO Session 9 (K)

Management of Childhood Obesity and its Complications

**14:40-15:10**  
**Orthopedic complications of childhood obesity**  
Moon Seok Park (Seoul National University, Korea)

**15:10-15:40**  
**Cardiovascular dysfunction and evaluation in obese children**  
Jae Sung Son (Konkuk University, Korea)

**15:40-16:10**  
**Lipid abnormalities associated with childhood obesity**  
Hyun Wook Chae (Yonsei University, Korea)
Satellite Symposium (K)

*(K): 한국어세션

**Dinner will be served from 19:00.

Breakfast Symposium 1

<table>
<thead>
<tr>
<th>Time</th>
<th>Topic</th>
<th>Speaker</th>
</tr>
</thead>
<tbody>
<tr>
<td>07:30-07:50</td>
<td>Time-in-range is a major patient priority, regardless of therapy, why?</td>
<td>Su Jin Jung (Sejong Hospital, Korea)</td>
</tr>
<tr>
<td>07:50-08:10</td>
<td>SGLT2 inhibitors, the earlier, the better</td>
<td>Juris J. Meier (Ruhr-University Bochum, Germany)</td>
</tr>
</tbody>
</table>

Breakfast Symposium 2

<table>
<thead>
<tr>
<th>Time</th>
<th>Topic</th>
<th>Speaker</th>
</tr>
</thead>
<tbody>
<tr>
<td>07:30-07:50</td>
<td>Real-world evidence for gemigliptin's clinical effectiveness and safety</td>
<td>So Hun Kim (Inha University, Korea)</td>
</tr>
<tr>
<td>07:50-08:10</td>
<td>The new diabetes treatment medicine, empagliflozin: glucose lowering and beyond</td>
<td>Woo Je Lee (University of Ulsan, Korea)</td>
</tr>
</tbody>
</table>
Luncheon Lectures

Luncheon Lecture 1, 2, 3

Clinical characteristics of individuals newly diagnosed with diabetes between 2015 and 2016: young diabetes differs from elderly diabetes
Dae Jung Kim (Ajou University, Korea)

12:10-12:30

DPP-4 inhibitors plus SGLT2 inhibitors, how does dual therapy achieve the potential complementary mechanisms?
Yong Ho Lee (Yonsei University, Korea)

12:30-12:50

Why do we need pioglitazone for young-onset T2DM patients?
Jaehyuk Lee (Seonam University, Korea)

12:50-13:10

Luncheon Lecture 4

The lasted scientific evidence for DPP-4 inhibitors with a focus on sitagliptin
Jens Juul Holst (University of Copenhagen, Denmark)

12:15-12:45

Role of lorcaserin in the treatment of obesity
Chang Beom Lee (Hanyang University, Korea)

12:15-12:45

Luncheon Lecture 5

Ipragliflozin beyond the glycemic control and considerations about safety issues
Eun Gyoung Hong (Hallym University, Korea)

12:15-12:45

Session 1

09:00-09:25
체중조절점(Set point)이 과연 있는가?
최형진 (서울의대 해부학교실)

09:25-09:50
비만인의 수면 왜 중요한가?
신철 (고려의대 호흡기내과)

09:50-10:15
의사의 자기관리가 비만치료에 중요한 이유
서영균 (한림의대 가정의학과)

10:15-10:25
질의응답 및 토의

10:40-11:00
비만환자에서 체성분 분석법과 그 유용성
김정환 (을지의대 가정의학과)

11:00-11:20
세로토닌과 체중조절: Lorcaserin
김경곤 (가천의대 가정의학과)

11:20-11:40
새로운 항비만복합제: Bupropion/naltrexone
이은영 (가톨릭의대 내분비내과)

11:40-12:00
항비만약제로 주목 받는 GLP-1 유도체: Liraglutide
김보연 (순천향의대 내분비대사내과)
Oral Presentation / Poster Exhibition

The accepted abstracts will be presented in either oral presentation or poster exhibition.

**Date:** 1-2 September 2017

Clinical obesity and metabolic syndrome
Pathogenesis of obesity and metabolic syndrome
Behavior, nutrition, education & exercise
Complications of obesity and metabolic syndrome
Therapeutics of obesity and metabolic syndrome
Epidemiology of obesity and metabolic syndrome
Integrated physiology of obesity and metabolic syndrome

Brief Communication

The ICOMES invites outstanding researches around the world and they will be presented at the ICOMES Brief Communication Session.

**Date:** 1-2 September 2017

**How to Join:** Email to the ICOMES secretariat at icomes@thewithin.co.kr.

Travel Grant

The ICOMES Travel Grant will be offered to overseas abstract submitters whose abstract has been selected as an outstanding research by the Scientific Committee. The application is automatically made when making all kind of abstract submission.

Asia: USD 500 / Non-Asia: USD 800 **It will be bank-transferred after the congress.

Awardee: One Presenting Author Only
Eligibility: Under 45 age / Overseas Participant / Abstract Submission

Best Articles in JOMES (Journal of Obesity and Metabolic Syndrome)

The KSSO is pleased to announce that the best articles in JOMES are as below; It will be presented in ICOMES.

**Date & Time:** [13:30-14:30] 1 September 2017
**Place:** Room 4
**Session Language:** Korean

**Contents**

- **Waist circumference-to-height ratio and coronary artery calcification**
  Sung-Goo Kang
  (Department of Family Medicine, St. Vincent’s Hospital, Korea)

- **Treatment with gefitinib, an epidermal growth factor receptor inhibitor, decreases serum cholesterol in patients with lung cancer**
  Yea Eun Kang
  (Department of Internal Medicine, Chungnam National University School of Medicine, Korea)

- **Physical fitness levels in Korean adolescents: the national fitness award project**
  Saejong Park
  (Department of Sports Science, Korea Institute of Sports Science, Korea)

- **Agreement between actual and perceived body weight in adolescents and their weight control behaviors**
  Sun Mi Shin
  (Department of Nursing, Joongbu University, Korea)
