Overview

The **Johnson & Johnson Institute** proudly presents the webinar series “**E-BARI DEBATE of the Month**”, which will take place once a month, always from 16:00 – 17:30 CET. The **moderator, Prof. Karl Miller**, will introduce each month a different “**hot**” topic, which is currently discussed in the bariatric & metabolic community. He will invite for each E-BARI DEBATE **4 renown experts** and ask them to present their opinion related to the topic. The **audience** will have the opportunity to **actively participate during Q&A and voting** sessions.

The goal of the webinar series is to address important topics in bariatric & metabolic surgery, to debate different perspectives, to exchange experience and to share knowledge.

The **E-BARI Debate of November** will focus on “**The Safety of Metabolic Surgery during COVID/Pandemic**”. High eligibility among patients, low awareness, and many lost opportunities. Should we continue to operate on patients during the COVID pandemic? If so, whom should we consider first?”

Program:

16:00	Welcome <i>Introduce Faculty & Present Topic</i>	Prof. Karl Miller
16:10	How to safely resume Bariatric Surgery during/after COVID: The UK example	Mr. Kamal Mahawar
