

A close-up photograph of a surgical dissection on a human specimen, likely a cadaver. The image shows various anatomical structures, including muscles, tendons, and possibly a joint. Two surgical instruments are visible: a pair of forceps on the right and a scalpel on the left. The text "Restoration of the normal anatomy after RYGB" is overlaid in white, bold, sans-serif font. The background is a mix of reddish-brown and yellowish-tan colors, representing the exposed tissue.
